6. [] Met with Congressman William McCulloch for about an hour and discussed with him H.R. 13275, the wiretap bill introduced by McCulloch with some 30 co-sponsors. He indicated that it appears there is no chance that this will receive any action this year. On the other hand, this is a serious Republican effort to get out a much broader bill than the Administration has proposed. He indicated he would be happy to discuss details with the security agencies since he wants to eventually report the best possible bill. He is fully sympathetic to Agency needs and was most appreciative that we had made known our interest in this matter.

8. [] Received from Mr. Philip Kelleher, Counsel House Armed Services Committee, a copy of the Evert Clark item from the New York Times of October 17 relating to fractional orbit tests by the Soviet Union. Mr. Kelleher indicated that quite a bit of interest has been generated in the Committee through a briefing by DIA on this same subject on Wednesday, 18 October, and that the question will be one for consideration in the next Agency briefing.
